My dear Lady Cha

The Queen commands me to say
that as Wednesday evening she is
able to do as she likes & its being
your Birthday & not having last
year been able to visit you that
day she particularly wishes to
pass it with you at your own
home & begs you will conclude
who you please or no one if
you like better but she hopes
to be with you well with her
Mr Carter she knows you
generally have Prof. Knight
your own family & any
body else you like - of course

your rooms she dresses into
 say she will set with you &
 some few whilst we remain
 with dear Mrs. Smith & Mrs.
 Childers not to be too much
 for you keep quiet on the
 morning if you accept which
 you will have the good news
 to let me know I also, what a
 clock we should come

 in the thoughts of this visit
