

No. 6/

Amherst.  
Apr: 17: 1818.

Dear Daniel,

Your kind letter this morn-  
 -ing and its enclosures which I return: I am glad  
 the rain has done so much good: I suppose of the  
 manner in which Col. Smith has paid the money:  
 I make no doubt I shall equally consider Col. Smith's  
 arrangement good: I have not yet received the pa-  
 -pers respecting the Farm from Barton: but as  
 the report is highly favorable to the system  
 of cultivation I trust the ditches and drains will  
 be well attended to and that the water will pass  
 so that the corn may never be flooded again:  
 God by the hearty prayers of one hundred  
 Pious men of my persuasion and their families.

1800  
GEO. 1  
I wish you to settle with Mr. Oak as to what quan-  
-tity and what quality she will want to complete  
entirely both for Bury and Mr. James: do not men-  
-tion this circumstance as it is in fact against  
her: I hear most regularly from them: but not  
so often from her the really because: I will  
write if I have time to spare: but tell them this  
letter of the 6<sup>th</sup> is arrived: my best wishes  
to my daughters and ever believe me,

Dear Daniel,

Yours sincerely

W. Heath
