Dear Sir,

Your L^d:s letter reached me yesterday which I could not answer till this morning being so much engaged about my trial which went off last night as well as possible.

I have perfect confidence in G. Hick and Cates. but it is singular I had to have written to Barton in the very same terms respecting Allen as you have to me: I wish therefore you and Barton to talk over with Mr. Paddy concerning the Hetcher gardens at Beeby: the pleasure ground is complete and muscle the best: I am to reside at Beeby till next December and the Irish South Adelley house supplied with fruit and vegetables from the Hetcher gardens.

ged under the idea of my not residing there for a
twelvemonth:

I make no doubt you had perfectly good reasons
for keeping Mrs. the Reading in Paris by Assess:
I thought Mr. Oak intended that Assess was
a sort of second Assess & he was to be either in town
or country where she herself is not: That Assess
will probably go to her husband on his return: but
Sophia and Barton will with you settle this point:
For the moment I desire to have more servants
than what are absolutely necessary: I am very sen-
sible of the attention of Lady Berkeley respect-
ing the Pheasants.

Tell Crates I approve of all he is doing: I can not
expect ministers much being lodged in the Park:
I wish John H. & Jack Tomlin employed as some
were last ministers with particular assistance from

The Parish: desire Mr. Bak to send me a complete
list of advertisements for party persons: advice and
ever be kind to me,

Yours sincerely
J. S.
