

L: 31.

Hammers.

The
Feb: 18: 1819.

Dear Davill, Yours L: 28 has this moment reach-
ed me and I am glad mine L: 25, 26 and 27 are receiv-
ed: the packages is been and I shall be anxious to re-
ceive Dr: B's final list: I suppose all together of
the arrangements respecting the gardeners: I return
the list of seeds, a paper and the other several papers
signed: you will talk on the subject of a hurry with
the new gardeners: I am concerned on the subject of the
Glanders having made its appearance: I hope it is stop-
ped and I shall most anxiously expect your next letter:
tell Carter his letter is satisfactory: but as some consid-
erable time must elapse before any of the available land
can be laid down I shall probably hear of this by

prior to any of the fields being covered in reeds and I am
still doubtful as to the advantage of pro-& sheeping
at least one half in unusable: I want his opinion on
this point "Yes or No": advise and never believe me,

Yours sincerely
J. K. O.
William A.
