

No. 30.

Manus.

March 20: 1819.

Dear Daniell, Your No. 35 and its various several enclosures arrived this morning and I return them regularly signed papers.

I am glad Mr. Paddy has procured a new gardener, who I trust will answer: the Bailiffment of several acres for the Ten Pounds: the presence of the Table Beer being short on the premises and also of the Ale being out: the weather is dreadful: I certainly wish to make a many Willow Plantations as he can with success and ease remain.

Yours sincerely
