

L: 39.

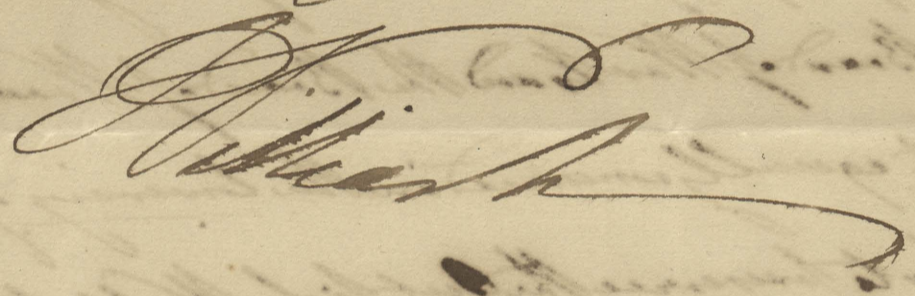

Answer:
March 31: 1819.

Dear Daniell, Your L: 36 and its annexes usual en-
-losures have this morning reached me and I return as usual
the paper signed.

Mr. Wall must pay the same money and Glenkerric
did: a proper place must be fixed for the Buck Wheat:
the Board of Works and the Board of Woods and Forests are
both equally concerned in the lowering of the Trench in
order to preserve the outside Wall of the Park and to drain
the ground of the Park as Mr. Hunt has ordered: I shall be
everies to read the statement of the Bailiff and the Park
Keeper respecting the strange land of this last winter: I shall
decide to the best of my judgment without partiality: but
I do not like the pretensions of Byshick: or however the Bai-
-liff's creditation can take place in the labour of the

same Carter is the only person who has my authority to dis-
 -charge the individuals: I return Lord Oxford's letter which
 you will keep: the sooner the new gardeners enter into office
 the better and Council must be taken on again: I shall send
 by the next day the papers the whole of the letter to
 Mr. Oak: adieu and ever believe me,

Yours sincerely

 William Pitt
