Friday
Night.

Dear Phyllis,

Business but not my inclination
 takes me to town next Thursday on which day my
 children must and dine with me: I shall be most
 happy to see your friendship on the Friday between
 one and two: I have much to unburden and may
 say that much had Miss Long have the daughters
 of the regiment without and does daily work she
 would have been mine: I cannot describe the point.

ship love and regard I have experienced from the
De Crespigny and more particularly at the moment
of this extraordinary marriage being announced to
me by the young lady herself: but I will tell
you all when we meet: my best wishes and com-
pliments attend the Countess and ever believe me,

Dear Prayo,
Yours most sincerely
