

Brighton.  
Sunday Evening.

Dear Daniel,  
I am to acknowledge yours of yesterday and its various enclosures. I wish with all my heart that you were not impeded annually with France: subscriptions are our present folly as you justly observe: I make no doubt that justice is improved and by all means keep him to his education: I am sure the Christmas distribution will be well done by you: employ us Payer & Harewood: the sooner the bills can be sent to Boston the better: your observations much.

- true to the Alc and Beer expenditure are correct  
 and I wish you to well consider and investigate  
 the business before the next evening: speak  
 to Carter on the subject: I intend as soon as I can  
 to get clear of the Managers of St. J.: but I have not  
 completed all I intend in the forenoon and after  
 Carter you and I must go to work together:  
 I have every confidence in your zeal and judg-  
 -ment and do not think we can or shall differ  
 much: advice and never believe me,

Yours sincerely

J. H. P.
