J. James,

Friday Evening.

Dear Daniell, It being able to see Bar-
-ton till tomorrow your letter which has this
moment reached me is very acceptable. I re-
-turn the Gardner's account and the more is
done the better; but he is always as you
observe ever sacking. I am confident Boston
cannot do it: Went with conviction and indeed
with truth; for at present nothing can be
settled: but a few days will settle everything.
I hope the delay of Mr. Sumner will not be
of any consequence to yourself; but at all events

— more probably 1818, because of his observation on
"public duty".

you were to reside in the Upper Lodge; general
 engineer respecting General Stevenson's book:
 I am certainly, latter and pray every possible atten-
 -tion to the medical advice; I have so many ur-
 -gent reasons to take care of myself and to do
 that which both my public and private duty
 require. I hope eventually to bring my mind
 and body to a proper state of action the 15th con-
 -flict is near; my letters from abroad will
 be important and I am sure they may be fa-
 -vourable; adieu and ever believe me,

O Dear Sir,

Yours sincerely

W. Pitt Rivers
