Nov. 21. 1705.

Dear George,

Nothing can induce me to the step I
take but the thorough knowledge of the ten den regarding you
have always professed for me; you well know that my circum-
stances are very narrow, & I at present have absolutely not
a farthing. I could wish you would, dear brother, send me two
£ Bank notes by the return of my servant; as I know you

are not in the pleasantest circumstances, do not send me more than
what you can with ease spare: as I shall be equally obliged
to you in part as for the whole. Tomorrow I sail & shall
turn soon, so send my regards in the course of next week

Yours,

Yours sincerely,

W. Pitt
