

The Duke of Clarence

44992

Bedford.

Thursday  
Even.

Dear Sir, I have this morning received the  
enclosed from Lord Princes which I am to request  
you will forward to Mr. Jordan that she may  
see what I have done with his Lordship's rela-  
tive to Alsop: on my return to town I will do  
what I can to get him out and let me know to  
whom I ought to apply.

The Prince is quite well and seems pleased with  
his journey: but that it has gone off very well  
and I trust for my love that we shall remain

out of town till the last moment: no people  
can be more attentive than Lord and Lady Hert-  
ford and you know, particularly like the conver-  
sation of the Marquis: He is in my opinion  
-promoted in every way: the news from Russia  
is excellent and you know I am both publicly  
and privately interested in the events of that coun-  
-try: I hope we shall soon have your accounts  
from Lord Wellington and then we shall meet  
Parliament with what advice tell me meet  
and ever believe me,

Dear Sir,

Yours sincerely  
D. Pitt
