I desire the Duke Leeds will direct (as I fear Mr. Fraser
is too much inclined to do any business at present) that
no boxes be sent here tomorrow morning as I propose
setting out early for the New Forest; but by the Mail
Coach that will set out at three in the afternoon if
there are any papers for my signing that they may be dispatched
before papers may be sent. When I was absent the last
year twice or thrice a Messenger came though he had no
boxes, as the journey is farther than usual and
and therefore one should only come when there are boxes
which naturally must occur most days.
