My Dearest Mary,

I am well aware that we must expect lips and
~~words~~ in the State of dear Amelia, and therefore the delight conveyed
 in the first part of the kind letter which I received from you this
 day has given me more relief than apprehension, and I trust
 from her having had some comfortable sleep in the night &
 from what Doctor Bogan states that she has felt more easy
 since. — As the Physicians will call here tomorrow
 in their return from Windsor, and as I shall be with dear
 Amelia in the evening, there cannot be any objection for
 your writing by the groom tomorrow morning. — I
 enclose to you the Report respecting Ernest and also
 send the money for the Physicians. — The Queen desires
 her love and joyous at the thoughts of seeing you
 tomorrow — as does also

My Dearest Mary

(Signed)

George
