March the 12

Windsor

I am quite glad to find  
they don't believe that  
you have had some return  
of gout but hope & trust  
it may go off soon - This  
matter is much against  
you - I returned to Windsor  
yesterday found my wife  
has my throats - She  
is the same good state  
as last time is

Charlotte came on this  
morning from Cambridge  
to see us the picture of

health & spirits
