My Dearest Mary,

I have received very sincere pleasure from
 your kind letter of yesterday evening, and the satisfactory Report,
 which you were enabled to make of your first day's Journey &
 I am warmly hope that your accounts will continue equally pleasant
 and promising & that my dear brother's Progress will
 realize our most sanguine Expectations. — I am fully
 sensible of the dutiful and affectionate Motives by which
 you are influenced upon this & every Occasion, and too much
 alive to the warm Attachment, which you have always shown
 towards me, not to feel deeply affected by your absence, to which
 a Conviction of the Comfort which your Attendance on America
 must afford to her could alone have so consoled me. — I need
 not add that your Conduct in this Instance, has, if possible
 endeared you still further to

My Dearest Mary,

Your most affectionate Father
