

[1821]

My dear Mother
The 18 Bags sent
My blood bottles sent off & packet of letters
has been sent gratefully received & it is
quite impossible to describe how much
I feel your very great kindness in
noting at a moment when you must
be so completely taken up. I have
not with delight of your reception
in Ireland - I thank God your health
does not suffer from all the fatigue
& I should like the faculty all
round you will in some measure
make up for all the disagreeable
& disgusting scenes that have
taken place within this last
week first at Brandon here
& then at the Porcupine and
on &c. It is all much too

proceed to think of - I think ought to
 open the eyes of people in general
 as well as the Executive
 is certainly quite unparalleled
 In me to presume to open any
 opinion beyond that would be a
 folly as I am sure your hands
 than might not understand
 the whole for better than I
 am, but I believe I may say that
 I lament the not opened a
 meeting and that the tragedy
 not the subject they ought to
 have had - Did you ever read of
 a letter as truly bold - I am fully
 sensible the whole would have
 put you to much inconvenience
 but you can have no other
 now thankfully I feel that
 you was best in some -

[1821]

for what ever purpose they may be attached
 to any of these who receive the documents
 You think God has had little or
 nothing to do with it & surely you
 must allow they had unfavourable
designing insidious people to deal
 with, & who had no other but to
 make a tumult and riot &
 then while confronted of these bringing
 to Brandenburg Hesse and other
Russians who were surrounded
 the I & I espoused her cause from
 the beginning here I think we
 showed themselves in such a
style that hand & hand ought
 to join hand & hand to have
them out of sovereignty & such
second principals out of the
country — I cannot say any
more can be done in some
things, but there will

clear up I am sure nothing
that any affair could be
done, but forgive me if I let my
own own in the your constant
kindness make me open my
heart & shout aloud - but try
to say as little as you can
about at all your feelings
be wounded & hurt all that
I enter into & feel for you -
but follow your dear Father's
example & replant your seed
as long as you can & until
you are restored they don't
deserve your confidence -
Don't let the world suffer
you are dejected - I mean
about your heart but it
is the restless world that

of things of that kind that keeps me
 in a fright in particular at
 a moment when you are in
 County all by itself & that we
 do often do along I received a letter
 from Miss & Conyenta this day dated
 the 7th of Hamburg Conyenta arrived at
 Hamburg the 6th - The first meeting
 between the two sisters was very
 our coming from Miss and that
 never been for a long time
 but when they met that was
 even & nothing but for Hopping
 She is to stay 5 weeks with them
 & then go to Regal - Miss was
 all gratitude for your picture
 & I enclose you a letter from
 her - I am going in quite
 against they will leaving out
 of Doors - & I am & me very comfortable

I am sorry to hear for a person
to see by the same the year and
please me ever for a name

Yours most devoted
& true friend

What do you say to D. for being late
I am sorry it is something
quite new —
