

920 add. 12.

William IV to D^{cs} of Gloucester.

1834

Dearest Henry, I take up my pen
 to acknowledge yours of yesterday and
 accept with equal joy and satisfaction
 the kind proposal of the suffering
 Duke. Saying that it is most pain-
 -ful and affectionate to and if he should re-
 -cover I shall if possible feel agree-
 -ed to send for him thence. I shall
 give the necessary directions for him
 to be prayed for in the Chapel Royal.
 I trust you so perfectly know me that
 I hardly need add my object will be
 your comfort. The Duke's wishes are
 so near to the kind hearts of Prince & Au-
 -gusta's I hope to know your servant may

here. But I have been from Paris and have
been.

God bless you and all those I love and
where at Baginot and ever believe
me in the present and here.

Your most truly affectionate
Friend and Brother
