My dear Mr. Villiers
 You are all kind
 in your response
 after me - I have had
 a cold which has
 confined me the
 last week but it is
 going off kindly -
 It is wonderful how
 I was so well
 The first fortnight
 after my arrival

but the uncertainty
 uncertainty I have been
 having under
 -coming my pen
 But the less time
 a good down look
 In the good the place
 might have done
 for me - The suspense
 & uncertainty of my offer
 may bring my own
 name & name down

- being accounts from
 - having my name &
 that will upon all
 - whether you feel
 may you for nothing
 for some days - I feel
 your daughter has
 encouraged me with
 full things would
 I rather myself I
 shall work out of
 than enough better
 than I should -

My Mother has been
sickly since but colour
was back for last
to all her hand
has wonderful rest
a little more well
as at times as to
from your papers
of recovery, but
- in the last part
with chances of
getting out of this
stagnation is considered
as impossible - I had
a letter sent of the 24

Amongst the various
 sources of the
 Lakes question the
 before the same name
 The measure is as late
 again - the top will
 be deeply felt at
 in Germany as he
 was greatly looked
 up to by all the
 right thinking
 people - as to my own
 feelings I was truly
 most deeply
 made upon them
