

Princess Mary
October 15th 1804

My dear Madam
As it was out in my power
to send you a comfortable
account
of Amalia by this morning
but I take the liberty
of troubling you with
these few lines by
express to say that
Amalia has been
rather better towards
evening has been
out in the carriage
for some time
half an hour & it
went off better than
I expected so to the
house on the side

but the night came
on very much
shortening the time
she was in school
and the number
of writing as usual
by the Post to her
Grandfather & Affs

Mary
