Oct - the 27

My dear Mr. Poper

I have again to thank you
 for a most agreeable kind letter received
 yesterday every word of which has
 gone deep into my heart —
 Cecilia had a good deal of fever
 & on yesterday got up about one
 o'clock & went to bed after the dinner
 table about 9 o'clock. Bevan found
 her better than he expected
 last night, she has passed a
 quiet night but is languid
 this morning. I am sure Bevan
 finds her pulse better than
 he has found it for some
 days past — Bevan continues
 very depressed in his opinion

That America will not be able
 to have Perry with us as
 next Sunday & I believe can
 write his name to G^d for
 which I suppose the De will
 explain to you —
 William arrived last night
 about 9 o'clock in high spirits
 The Ball last night went off
 very well & was very full
 I did not leave about half past
 ten o'clock — Yours &c
 Macey
