

Nov. 18. 1811

My dear Mr Adams —
a thousand thanks for
your kind letter & for the beautiful
fine season which was perpetuated
& we all have enjoyed it of all
things I know in my life not
any so good & certainly it
never came so good before
I am delighted you have been
afflicted it must have been
a great trial but thank God
it is over — I still will not
give up the hopes of seeing
you in the Spring or Summer
next year, it is my intention
at this moment you have
a horror of moving, but
I hope time will make
you feel that you have
nothing to do but you will

however to enjoy your
 society - We are really very
 much interested in what you
 include the general opinion
 is that the R. is becoming
 more (I believe the health
 is tolerably good just now
 John Pollock is not come
 yet he was gone to Boston
 for his health therefore
 that of course has delayed
 his coming - I have I
 should be surprised what
 I can describe - My
 mind has to be in I am
 very glad your sister is well
 My very best is because
 of Augusta's complaint -
 My best is better G. M.
 Alday
