My dear Mrs Adams

Thank God I am
 now the King is quite out of
 danger for the present, but
 was dreadfully ill all Sunday
 & had alarmingly so on
 Sunday morning as the
 Physicians were so put out
 as to bring on a fit
 which after a struggle of
 five hours the King &
 our natural strength got
 the better of and towards
 evening from fatigue
 slept whole & some short
 time he has been some
 compared through it less

off him in a very bad
state of mind, but his
physical strength was really
hardly impaired at all
but with a tendency that
the A. talked for 53 hours
without interruption
The Patient is displeas'd for
and more willing to
talk for ever, & but these
attacks prove time to
time & so the strength
of the member he is here
wholly & leaves fit, &
as he soon has had one
it is impossible to answer
for him a hundred
The I. really is better
