

Oct 26th ? 1812

Watermark 1811

My dear Mr Adams -
 I must write you a
 few lines to enquire after you all
 hope by this time you have
 quite recovered all the fatigues
 of your journey & are not the more
 for feeling yourself once again
 among so many friends -
 I trust your excellent Adams &
 all her children are returned
 home the better for the
 sea & that William is restored
 to his usual good health -
 Don't forget to let me know
 some day before you come
 to London I have too much to
 shew you a way from your
 friends as I am sure the
 longer you can remain
 with them the better only

Don't forget your promise of
making me a visit before
you go home - I shall be
glad to compare the sound the
same, but in all other respects
he is in good health -

The Duke of Clarence is now on the
road & desires to be sent kindly
remembrances to you - I shall do

you know of Maria she must
be very near her time here

Sophia continues in the
same delicate state & both

Lucretia & Bolleray are
requiring great care & attention

Yours &c & believe me

Yours
at the 26 -
