

My dear Mr Adams —
The last 10 days I have
been so miserable ever
— wishing my blood run
— when I was then absolutely
lost with a great increase
of his disorder, that I
was run out of my power
to put pen to paper —
on Saturday I was
in the greatest possible
danger but thank God
the immediate danger
was over by Sunday
morning. Then I say
thank God I hardly
know why I can make
use of such a word
for I can say truly
that really I have
with me left to be put
with the prospect of
recovery of health —
added to the most

anxiety on her mind
concerning the King's
was her only old with
our inflammation on her
lungs & was her first
trouble, but she was
so much better yesterday
as to go into her
next room - all the
arrangements making
for the King's
Establishment to be
made as her
last wishes as to
from the I understand
the whole thing
coming is disappointed
at all General's
plans & content does
not feel her
interests at all
Her last attack
was left the R. Duke

infected, more or
less in every attack
before. The Prince is
very much better &
his recovery to us all
for his good
by his continued
a very independent
state of health &
requires great care
& attention.

I am more than
ever devotedly
as I wish nearly
all in my best
the morning all
my things has
been a great many
& I am as for your

but it can not be
doubted - has your
with me I could
tell you many
things that I am
sure you would
be very glad, but
I have not time in
a letter - Mrs. Plant
is going to leave us
proving great
changes must
take place in
the house she
will surely
be glad to enter

the rest of the family
as to receive of quite
a penny - guilty is
still with us but
I have must leave
us now, for some
other times to the
I not allowing her
to dine at the table
with us, whereas
the Peny do to the land
by your all table
are to drop, but
your Beckhoff & as
less of course is
taken up as
an unacceptable
one she will
fulfil her duty to

you before she is
desirous to do so
This case is very
but it can not be
helped - has your
mother now I could
tell you many
things that I am
sure you would
be sorry for, but
I have not time in
a letter - Miss Planta
is going to leave us
pursuing great
changes and
take place in
the house she
and will
by two to enter

the rest of the family
as to make of quite
a journey - gently
still with us but
I must leave
us now, for my
return times to the
I will allow my son
to dine at the table
with us, whereas
the King's table
begins all tables
are to sleep, but
Mrs. Beckwith & as
hers of course is
taken upon as
an unsuccessful

she is going to settle
at Bath this I
give her two hundred
a year & my older
sisters make it
up three hundred
she goes forward
the 12 of Feb^{ry} but
remains on at
the 24 till April
God bless you and
love to Susan I
hope this cold
weather does not
deceive with
you & think you
will be able to
send me a good

account of you all
on the occasion
wishes of your
Mum
