Windsor July the 12  
 My dear Mrs Adams I am sure  
 will be glad to hear from you  
 from that part of the place and  
 from any one of my little  
children - I describe the  
sort of my dear children as finding  
myself one again in the best  
cattle surrounded by all the best  
& low land in the world  
I never was so glad to  
tell all my dear children  
in that subject & a great  
number of them for all

any suffering - since I wrote I have  
 lost I have had some slight  
 operations the last was a  
 very successful one, but I  
 have been, wearing the  
 case of the full series and  
 of partial operations and  
 have attended to partial  
series & partial helped  
 when partial was from the  
front of the operations  
 was, but a sharp one  
to never would get well

I should have been in my  
 high room but land water  
 was called in was and  
 to avoid the trouble & that  
 was caused me trouble  
 trouble & some trouble  
 record trouble & some trouble  
 at trouble trouble of trouble  
 & trouble about trouble  
 in the trouble trouble  
trouble trouble trouble  
 very much - for trouble  
 was trouble trouble trouble

The length of the conference  
but I am still carried off  
& some stones but put in  
a hole for the first time  
to stop & with the assistance  
of the two women made  
steps with the two red feet  
but it is so much it feel  
dread - I had the comfort  
of finding the two long thin  
elder sisters of the two  
& long down by leg so much  
narrow that I can hardly  
think there is the same

and missing
