

Sep. 3 1914

My dear Mr Adams I have been in hopes
of hearing from you every day for some
time past & began to be quite
anxious about you all therefore
will not let an other day pass
by but without venturing you
a few lines to recall myself to
your memory - As to our Island
they be kept quiet & our general
health is good but the same
remains just in the same
lost state so being sent
and the bird told in the
news paper you may believe
how happy we should be if
we could say all the papers
above was only likely
to have been seen before

I wish you had more care of
 late evening had a violent
 cold & cough but that is better
 again - Charlotte however has
 been unwell but has the
 evening to her own satisfaction
 her mother's & she has arrived
 & read herself ill - she must
 she trusts to us when God
 knows best. but wish her
 to come for our pleasure
 & content it really wishes
 our love but I am comfortable
 as nothing just leave pleasure
but she would we will
 of course this is for yourself
where - The Queen I don't
 think very well but I trust

Hope you received my former
letter from George and that
Lavinia is quite well from

Hannah had had one letter from
Mrs. Bennis, writes as if she
was quite happy & comfortable
I don't quite like the account of
Gully I know she is very much
sick & never recovered but I don't
know whether she is still
in any danger. I don't know
any more - my mother writes

the month at least see the
letter a good time God bless
