London Nov 20 1814

My dear Mr Adams I begin to fear
 you have quite forgot me as
 it is ages & ages since I have
 had one line from you. I
 wrote to you the day after I
 returned from Brighton & of
 had been from home you
 must have received it some
 time or other before this time
 I sincerely hope you have
 returned to me and I am
 always in every way
 I had the pleasure of seeing
 only through the pictures and
 my friends at your eyes
 were always & they were
 to say more and more
 when we had the pleasure
 of showing them the
 House I was delighted to

been truly thank the creature
 take you & all your family
 over & this regard & offer she has
 for all of you in the afternoon
 evening about your Thomas
 Country when is near her
 time & really love about her
 which I am not surprised at
 she should be so much by
 my she had I believe found
 her little girl much
 improved & I hope by doing
 your business you get in
 many times better than
 you expected & have
 now got all your business
 with you - I hope that
 is rather getting in there
 otherwise she goes out in
 the carriage whenever she

next
 with
 the
 a
 boy
 two
 but
 I had
 two
 two
 you
 you
 her
 both
 to
 & for
 you
 what
 one
 her
 can
 of
 her
 you

matter will extend but I do
 not mention out of her name
 there are - In fact the king in
 a most great comfortable
 happy state for himself &
 his general health is good
 but the crown is the same
 I have fully recovered and
 returned with a sore
 throat which gives her
 great pain at times
 and sometimes has ordered
 her to go into the house
 both - Postscript called
 to see her a few days ago
 & found her much better
 You may suppose from
 what you have seen
 on the news papers how
 soon her mind & energy
 enough in the subject
 of the Palace & the great
 business - The little is
 quite well & is to return

to purchase ^{10/14} the 2^d of the other
notes in good spirits and
as of the unpaid bank
notes - the accounts of
C^o Royal continue good but
enough is left & the balance
in the Bank & not a sufficient
of 10 months in her letters
which I found is a proof -
She has not so much
business but I think she has
one day with her in
the way to Vienna & only
give a rates for the day
I have no copy of any
P^o give by the law to
London & to the Queen's
& Vienna of the 10 with
you - I have looking forward
with the Council & believe
to send you in the Spring
& by which you have just
and have your business
