My dear Mrs Adams I am very thankful
 for the kind letters which I have
 not had a moment to answer
 until to day - the busy I have
 had in for the last three weeks
 must plead my excuse -
 You will have seen by the paper
 that we must soon to receive
 & take care of the King's
 & I should ever remember
 that I ever had any feeling
 so true as is afforded us with
 his acceptance it was a beautiful
 sight & the late afternoon
 truly Royal - I am sure that the
 Grand old lady has been
 with us at present which
 I am sure has not been
 charming as she is truly
 amiable but it was a
 great fatigue as she looks

seeing every thing and I was
 not used to be out all day long
 & was nearly ill when she
 left us - a few days quiet have
 not been very agreeable & I have
 to be quite in bed for
 by the time the business
 arrives when we expect my
 poor - Mother's health has
 jumped but she has been a
 little more comfortable for
 some days passed but think
 God has been showed at
 last after being refused
 to under us this quarter I shall

any less ^{not} extent of her views
 got on the smallest prospect
 of doing so - It is a sad show
 both to any announcement a
 little change that is likely
 to take place, her constant
 bad health ^{as to} costs a good
 of course on all her
 happenings, - like in public
 private I had to show
 when I was in I saw that
 her mind was still with
 fullness as I should have
 hoped her to call on me
 I should hope her grace
 may see George soon -
 Mr. Boyles health I saw many
 to say is so independent that
 she can not venture to

may a penny a cross land
enough attended with the operation
of food and salt powder
in the best which results
the same makes us but
a little necessary. No doubt
is returning to England which
is a great comfort to me
God bless you from time to time
D. Bless you
M. G.
