My dear Mrs Adams Many thanks for  
your kind letter & I must sincerely  
wish you & all your family every  
one being happy New Years and  
my comfort this mild of time  
can properly afford the cream  
is perfect & on all that good  
summers to your husband in  
sending it yesterday the  
Raspberries I tasted & found them  
my god but rather sour &  
we did not quite understand  
at first if you intended them  
to be eat with the cream or to  
be made into a Sauce but  
I decided that we should have  
a Sauce at all events to keep  
some of these Raspberries, as I am  
sure they can be intended for

putting the without any concern  
 about of sugar is mixed with them  
 the more is my business you  
 would send her the receipt  
 to make the Porcupine takes the  
 old German thought you to handle  
 at Augusta bridge & if you  
 would send us a few barrels  
 in a Box then I will be much  
 obliged to you some time or  
 other they have forgot how to  
 make them at home  
 I hope you will get all your  
 children with you Xmas day  
 I hope in the Spring to see  
 you some looking forward  
 with much pleasure to that  
 moment I have good  
 accounts from Boston but  
 you to say the other side

me talking of returning to England - this  
 mentioned matters being as  
 my health with the spleen and  
 this last week we have found  
 a spanner from there since  
 then likewise is not in a  
 good state of health last week  
 she was flung down for  
 a violent seizure in her  
 back which was attended  
 with much fever - she  
 has had a cold & I think  
 much attended with the  
 intended discharge of the  
 humors & her disease still  
 has not taken place yet  
 affords her some relief  
 Charlotte is returned looking  
 well & in good spirits

I have your very kind letter which  
I received long ago & which was  
much but she is now quite  
well again her mother &  
father is dead which  
affected her much -  
God bless you ever & I hope  
keep you - Yours  
Percy
