

Mar 4. 1815

Wright's 4 1815

My dear Mrs Adams. I feel
 quite as usual at my long
 sojourn, but when I told you
 that I really really have a
 movement to England coming to
 Charlotte concerning my stay
 to the fall at ten. I had a
 movement until 5 & what
 of the going out with the L
 & attending upon my lady
 have really one movement
 to England. Some give a good
 account of their case they do
 be happy in good health &
 comfort & good but the same
 is quite as bad as ever -
 My lady has been better until
 this last fortnight when
 she has had slight returns
 of spasm & cramp which though

They have not looked longer
 than to minutes at a
 time none in life have been
 my love and only objects
 of my eyes have been confidence
 in himself & some of his history
 are not a little - by last
 accounts from London were
 dated the 7th of 17th & the
 notes are good & plenty & so
 of his and his wife - I was much
 shocked & grieved with the
 accounts of your unhappy
 death it was very unexpected
 to me I am glad & still have
 to see I have greatly altered
 with it is my wish in the
 days of a brother -

Mar 4. 1815

In yr. or much the same
 at Windsor & here we are
 sound of our & our
 Charlotte I hope will get
 down soon which will
 be a great thing if we
 should - as I hope we
 shall never be of much
use to her in any way
 she is to be rested till
 I think of an ear and
my confid - God bless you
 I hope we will
 will rejoice in
 when do you come to
 down? - Of course you have
 heard the of the has
 sent word she will
 to return to England in
 May - God bless -
