

Mar. 12. 1815

It is quite impossible to say how
 much your letter has disposed
 me to say my ever dear brother
 as I had looked forward with
 much pleasure to seeing you
 this spring, but I must hope
 to be more fortunate next
 year when in my land
 in happier & better times
 The last 10 days have been
 really awful as the
 situation of things in
 London & the manner in
 which private business have
 been affected is shocking & I
 can tell that B. is
 hoping we can not expect
 things to be quicker - my care
 is to have & the more I

The things appear the best now
as my movements are all well
& that unmistaken Board reporter
escape is fortunate and to
what bad fortune which is
obscureful, and and try down
And I never traced a man
wonderful with them the land
& am my thankful in deed
not go to London as an one
for letter quite at London
an old allow one report
to be told us & not satisfied
with the accounts we
get from Custom House &
Home guards some day
of course we have not seen
my brothers since the
Hyde regime & until they
tell us to come to London
we shall not move

the
fall
been
con
by the
these
but
man
had
str
you
Hpl
we
was
all
but
in
my
for
any

the question is the longer of this
fall is a more or less more
business, but it must be
carried on we shall be governed
by the best it is to be learned
these negotiations are started
but they are more we
must make the best of
bad business, to prevent a
still worse, & I am sure
you see this as well —
Apply has been left well lately
his stomach is in the
constant state of slight
attacks which disturb
him & you are in confidence
in himself & that makes him
very low & we behave
our bladder is great &
enlarged & we are great build

has been put in the same
destitute state & but have
stood for six months —
I have good accounts from them
he was quite well on the 17th
of July & in good spirits —
The Duke of Cumberland was not
recovered on the 21st of July when
we heard from him —
Charlotte is still at home
she is to go to some house
but in some manner
with the Station in her face
which she appears to be only
some way from her usual
appearance & I found several
I am sure it will & look
greatly stronger & she has
not seen her for years
as it will but be in
time of her being with her papers
she is from her papers she is
I think we shall be very well

Mar 12. 1845 (Cont)

much gentle and much down
 I put my money for all the
 English who have in the
 North of France as they
 may be in a very disagreeable
 situation. My own
 Property (some from Gold) is being
 lost. I have heard of the
 decline of the value of the
 broken. I have seen it quite
 really completely and I have
 as it would be difficult
 to find in the sea & yet
 I can not take the
 book (of the husband) alone
 they find I can not take what
 is required by the law
 but I have seen other in
 the way of the future
 Property being lost 14 years

with me ~~never~~ ever the
pleasure, but this being
a matter of my good being
willing to make to perfection
to I hope would to have been
& constant in my name
to be beloved in the love
my hand love to be made &
shall be delighted to see
you & George God bless you
Adele

I am very to find Thomas
has been at the old bank
again & but succeeded
so well as usual
