 Boston 1815

My dear Mrs Adams —  
 many thanks for  
 your last letter I hope your  
 Brother will get his Book for  
 it appears very odd to me  
 that he takes when certainly  
 was the first discoverer of the  
 principle should have desired  
 the discovery to ask for any  
 thing that could but be  
 granted — they hope to build  
 & go out every day either  
 in the Pump or open carriage  
 the dear Pump is grand —  
 I shall hope to see Susan  
 before she quite leaves  
 town — but I don't know of

any time forced for ever  
going to London I have  
delightful accounts from  
Hannah - he is expecting  
Maddy (uncle's child) who  
must be leaving his  
Dp. at Berlin & his  
stay in this country  
will be very short  
Yours  
J. Maddy
