

May 2. 1822

My dear Mother

I received your kind letter & for all the aff-
 affection contained in it when my
 father's I am fully sensible of your
 constant kindness to me - & that
 my dear Mother has got the
 good Providence I hope will be out
 in a few days - for Henry does not
 seem so fond as his Mother and
 always more or less affected under
 a fit of the good - but he was much
 better yesterday - Augustus being
 in town is a great comfort to
 me - & play for him is terrible
 the Dr of course goes to Malvern
 next month for 6 weeks & then
 he takes her & should to see her
 Mother but they will return
 to England in Oct - She is very
 better than I expected her last
 disappointment & I hope for
 and I wish to see her more
 why she should not be at
 Mother some day or other

but she is really delicate - Further
 more we shall very likely be
 complaining of want of humidity
 & even of the fullness of the year -
 The opinion is that great amount
 & very good etc is - but weight
 for a number I must to the amount
 of interest & enjoyed etc much -
 For Miss Gorman I appear to say
 is young first & has suffering
 quite to interest & her struggles
 of beard wonderful - I often to
 see her - plenty is quite near
 her always she had in the
 winter, but a good deal to be
 not able to walk as far as
 as much as she used to do
 I hope you will all
 attend you have been for
 four weeks this year -
 her to provide the same
 Yours & family
 Graft E. ...

You
 Dear
 my
 I shall
 Dear
 to
 her
