found her consistent in part all
alights in her coming to England
in part out of the quest
she is unable to be part - Her
family urged her to leave
home & come to England - but
she says though she knows
the full extent of her commitment
she never will desert home
Her health is very poor and
I believe in a most precarious

alive - Mary has been staying
a few days with me & is back
with Augusta - She is to be

 bless her and you and all your family
