 1824  
 circa

Brighton Park August 22

My dear Mrs Adams I have been in  
 the King's length very soon I came  
 into the country that I have been in  
 times but not so near full length  
 what I will attend to I have  
 been a great deal at the bridge &  
 also at Longwood & Parkwood, &  
 presents to the King's Park & Brighton  
 (as long as I could see them)  
 I spent two delightful days at  
 the bridge to visit the King's Park  
 & the dear little girl it was a  
 very interesting visit & end of  
 delightfully - The improvement at  
 the little King's Park & all the  
 in being at the bridge equally well  
 done - The view the King's Park  
 jobs reported & strange for Brighton  
 which I pray may be the case  
 but I can not tell feeling only  
 sorry ourselves about them -  
 as we shall get over & have much  
 language about them -

Depart the Duke house this day & she  
is to bring her sister with her  
she shall receive her presents at  
all - but I hope coming to me &  
gradually getting to her  
will be of use to her -  
Augusta is gone to Brighton &  
make the Duchess a visit &  
write us of the interesting  
with the pleasure she was in  
will before she left I am  
that some change was  
highly necessary - that a  
price I am sure we have had  
I am sure she will be  
entirely of price and  
some matter - I hope it  
will be the year - I am  
to be sure - I am sure  
Yours truly  
John Murray
