Watermark 1828

My dear Mrs Adams

Many thanks for your
 last kind letter & I hope by this time
 your couple is better - The damp
 matter is against my belly & I
 never remember with a summer
 one so short, as I do, & so cold
 many days I have severally
 been able to get out, & the garden
 looks really so many of the
 flowers have a way - Since
 the Duke returned from Chesham
 the house has been quite
 full - My pleasure is doubled in
 your letter as to the old water

We dined at the Lodge last week
 & found the King well in
 health & spirits - but his
 complexion reminds of the
 swelling of his eyes - The
 Countess's papers were
 burning with us at
 this place - The King and
 company will depart
 for Windsor to-morrow, but
 he goes to receive strength
 in good health & vigour
 with attention - Geo. H. C.

I am sorry to hear that you are staying
in the house at present & I hope
you will not be tired at last
My Mother comes to see me
at 2 - She was here of course
all all the year with a
lot of things that she will
not attend to & I am
glad that it is quite
pleasant to me I am
at home - God bless you
I hope your children & grand
children are well & please
me with news
