

Mar. 2 1808

Wednesday the 2^d March

My dear Mr Adams -

I have a great many thanks
to return you for your last kind letter
in particular for sending me one
for Lady Baskin which I am sure
will be a very great comfort to Miss
Blinkinsope I hope the poor Girl will
follow all the good advice you
give her ~~and~~ that she will keep
her heart safe ~~the~~ during the
Voyage - I am full more need than
in finding you are decided to
bury yourself in the Country this
Winter - I am truly sorry you have
not been well, but I can not
see why the journey will

could do you any harm —
 Amelia has been ill with a cough
 & pain in her throat which has
 obliged her to keep her room & to
 avoid & breathe, but she is better
 again — We live in dread of the
 measles for Miss Eliza at
~~Edinburgh~~ it is quite frightful
 I am told it has been some
 boys have died of it — Indeed
 the finest nature you ever saw
 110 years old died yesterday
 & the family are in the
 greatest distress possible —
 The dear Henry is quite
 well in health his eyes

are
 good
 like
