

Dec. 28. 1809

My dear Mr Adams

I was desired by Anselm to
thank you on our account for
the Sea Dale which she says
I will tell you she has quite
kind upon us it is the only
Gardens stuff she ever had
& impossible to get at Windsor
she likewise thanks you for
the Riddle which helps
to answer her very much
I am sure you will rejoice
to hear that Anselm has
now left Galford & Backie
finding she got no better
& that after every consultation
she matters got worse
she begs for your advice
which she has printed

with his usual candour
 then two new Men came
 in for the first time on
 Sunday, but would give
 no opinion on a hearing
 therefore left us saying
 they would send it as
 soon as they could. It
 came by the Post to day
 & to the great joy of America
 it is the same opinion
 Pope had had of the case
 since he first saw her
 which is that an
inflamed membrane exists
in the Membrane
of the Seres - It is to be

Dec. 28. 1809

put in a few places their
arriving which they
hope to find by Wednesday
very agreeable - I really think
after having been so
months under Sir
Guthrie's care & 7
months under the joint
care of Sir Guthrie &
Robertson & I am indeed
x desired not the recalled
prompt from any one
they give it was
natural I could stand
much for more advice
& equally so that the
I should gratify it

It is impossible to say how pleased
I am in with Sir A. Hallford &
Boullie's reports on the
said with the necessary
them - I am certain the
the play are done
all they could for
& in every manner to
be much obliged to them
for all their attention
but it was impossible to give
in with the same fondness
they did here see good
God bless you love to
& believe me
Yours truly
W. M. D.

Dec 2nd 1809

In all our business
with the great pleasure
I am ever
Yours truly
