

Do.

Dec. 15 1810

My dear Mrs Adams

I am truly gratified to say  
 that dear Nancy has had a very  
 good night, particularly the last  
 two hours sleep which she enjoyed  
 peacefully, without dreaming &  
 thoroughly refreshing — The bli-  
 ss has not hurt her much, & her  
 nervous system, her head though  
 quite easy is greatly relieved  
 from weight & pain, she is still  
 in bed, which I own I think  
 highly necessary & is kept ex-  
 ceedingly quiet; — Dr A has  
 just returned today alas!  
 for the sake of ~~her~~

which bills we get I am determined  
not to despair I trust in that God  
who has so mercifully protected  
the dear & beloved A. when she  
most wanted it — Bessie is to  
watch her today & she says she  
is much better —

Arthur King is going on I think  
in God's will but not so rapidly  
as we wish at least that is  
the real truth

Many blessings but hundred love to  
you & all belonging to you & I  
remain ever & affectionately  
yours

December 15th
