My dear Mr Adams I believe you had
 better direct Miss Byam to send the
 Picture to Lady & My dear or take it
 herself to her Government Street I shall
 write to Lady & My dear by the next
 Post to inform her she will
 return mine from Miss Byam
 herself or by hand the Picture to
 deliver to me as Lady
 & My dear comes to London the
 first Feb^{ry} she can bring it
 down with her - her do tell
 me when I to look upon them as
 a present or should I give her
 my money and take them all
 for God sake but I should be
 very sorry unless to her any
 thing that might appear
 ungrateful -

The dear King gives me a study but I
 hope we get rather generous than
 looking forward yesterday being
 since he was not in the service
 for half an hour this is not
 found in the Bulletin because
 it would make people think
 the King is to be in in in
spirit term from the fact is
 that is quite impossible &
 through to all these that have
 the K has been and they will
know we must be much
better the better is that it
 is no proof of his cotton being
 better or more for we wish
 we always as the things they
 are taken out are all matters
 & the K in all his other
 allures must not much
