

2 May 1811

My dear Mr Adams -
 A thousand thanks for your
 kind letter received this
 morning & for all the
 kind expressions con-
 tained in it. We have
 hoped a dreadful trans-
 gress I wrote last as the
 King got well & will
 my day so that when
 the Court had left
 yesterday they found
 a conspiracy to take him
seized measures
 which some places are
 shocking measures
 & of Hollis's case &
 the whole responsibility
 of the rich man
 belongs to him
 the other they are
 of course entire

means that every day
 but the general health
 and if the public has
 done his duty, what
 he never has done
 from the fact that
 he cannot not this
 done / All this I can
 and I can not have
 happened - to the public
 health & I would give
 it as the first
 previous public's right
 to put himself before
 for now & take care
 in himself offered to
 me & me again
 the sick man
 represented the system
 he was going upon
 never would answer

till the present, so & do
 my that every man
 that public has found
 times & the only chance
 the death has been
 in the business part
 & many his soul
 what makes it the best
 sample to us is that
 all as the king was
 in mind for the last
 two months & every
 enlargement of his
 done by public's hand
 have more / yet he
 was sensible of his
 own intention in
 venturing this
 last two days before
 the new system
 began. I would

as that he looked up all
 his things the night
 before & got up his
 keys to the door
 that is to say went there
 to see by this Pope Bott
 the key was greatly
 envied for some
 times after the Pope
 left him, but he would
 have care in some
 in any way to allow
 or even any other
 without saying but
 that of seeing his lady
 & giving her orders in
 sending any papers
 but through his
 his general health
 is good & his legs
 scalled with
 some rashes in the
 June and

of his health was more
 we should get a real
 cause for the terminal
 being as expected
 follows say the case
 you less opinion and
 may in the other for
 the best fortnightly
 which must be
 as much as
 necessity - I think all
 of us see numbers of the
 world I think considering
 what a time we
 have passed - I believe
 health appears to
 suffer here there
 any of us - but she
 is much & very better
 as for myself I am
 alive - I hope you
 are ever about for
 continue long and live
 to honor God & Mary
