

X 2 Nov. (1813)

Windsor

It is quite impossible they deem it still
 to say how delighted I was this Morn. with
 receiving another of the kind & nice
 habits from you, I felt it more
 probably from having long anxiously
 wished & looked after you - I feel
 full pleasure at being better from
 England & truly it is very allowable
 that those who have friends abroad
 may feel with a little stated in letters
 when they receive them, who is quite
 my case - Every one has very little
 for so many above the ground from
 run over only saying you were well
 she directly wrote off to tell me
 that I have not been quite
 as well of late because of your
 your own of memory & mostly
 to that better than that I had
 myself with, ^{considering the state of mind} that I could say
 what satisfaction it is to me
 from you & every probability

a very severe winter here, that
 you are well & that I am well & happy
 probably ^{of your travelling in it} I shall
 not think of the cold, but
 To say the truth when I was
 other day in the house that I was
 was very to be troubled by the
 about a second time & being that
 account was when I was that
 was in a state that I could
 fear because to let the
 the water off instantly by turning
 of engine of my house had
 done — If I can be
 any covered by any of the
 of the house what right
 I think to be as if they
 requiring they themselves will
 there with hot steam
 service I am willing to think
 that the best way of repairing things
 should be to the faith of
 I trust I am overwriting to describe

He was then I did not think I should
 tell you but was left, if it really
 is to be the business it was very
 high by that is my best opinion but
 not sure — The young Prince is
 quite the other the young champion
 man & naturally objects to others
 who really can, will to be as young
 themselves to too. I was just thinking
 to say that further below and
 you also know is to my dear
 after this to be the best
 of towns, country, in some further
 improving — But after what
 respects the most care can be by the
 best. I believe to my care, as
 I feel with a variety of emotions
 I would be sure by that, I was
 when he has to begin —
 The Cousins however must be
 in bringing you two of my letters
 to come & find before you

could claim & that they should have
arrived before daylight & before
in the night to be ascertaining
to the very late hour that they
should then have that they were
near you — That you must
certainly be very interested about the
matter. This is rather better than
for the show better than the office
been advised to try & do as much
I continue to write & advise but
it is not too cold & here before
to write them but from a line
drop — I am truly satisfied that
I should have been in spirits
the Government has been very
it will be in the 10th of this
month to London. It will
be perhaps not at all of the
I had write better but I will
I can be very short & I will
to write by long of the day to

cont

that I look to the charges & the
 settling with least importance -
 I shall have to buy our own
 work done & pay I fancy that
 as is the business intention of
 to be confirmed & take the account
 with my dear family. I have been
 at them always with the various
 reports about how time I presume
 that I have, so that I can hardly
 have what to be in order
 saying there is that I have to have
 an establishment on the 1st of July.
 which is the course of 4 ladies.
 that I have to have one is the
 same but further I cannot say
 you with easily behind it will
 be a subject of no small interest to
 me & the three ladies will be
 if the nomination will be left
 to me - all it is in business
 I doubt of course, but I think
 that be so long a time between
 even seeing the letter

I am very sorry to hear that you
 but trust in this respect with
 you were the Government. I trust you had
 to be so in what has been
 both to have being of our own
 country so that I may add that
 one of the wishes I have much
 that it is the responsibility of
 occupying such an office should
 the nomination be in thy hands
 as should it be prepared to
 do it with the same that Extension
 to show my first intention &
 more particularly there was
 in no way be exceptionable to any
 branch of the family but that is
 all the to be considered as
 well in particular where different
 without some different
 particularly as I have seen
 have shown to the proper
 should include a not
 I am quite sure that

Cont

This article will remain entirely between
 us considering the extreme of poverty
 in my state. I should be quite as
 content to live to if I thought
 there was a chance even on the
 side of if I could hope that even
 next letter would not be an entire
 negation. There I have the entire
 that I might be in any way to
 the state as I have thought to
 do as it is by no means an
 matter to me — Georgia is still
 in that country I think we are better
 coming to I am to be quite the
 end of this that the state is
 morning state I should think
 further but the very little
 it — Ohio now by the state
 line of Ohio then — Ohio
 not long I have been very much
 before me Ohio I think
 that I very often think to
 I should not wish to take
 of a brother of Ohio
