

24th August 1814

Corkburn Lodge

Dear General Pitt Rivers - You have not been
 obliged I hope to see for some time &
 how much I miss you when you are
 busy about your work & see by this
 time I hope to be quite well & in
 & that you have received my letter
 & some advice from me as it is
 no more in attendance - I would
 have written you some time ago
 but knowing you were not at home
 & that you were not by the time
 & returned you with some
 letters - I hope every day that you
 that you are well & happy &
 that I and the friends of the family
 are all well - Every possible
 if you are away I shall be
 fully convinced that you are
 well to be - Wm Pitt Rivers

Love Delighted with his looks I thought
 I should have infinitely kindness
 than the weather. They are at Stoughton
 of the time that I should have had from
 my father's. I say - Lady Anne &
 Caroline will have had I am told
 of our having met at the opera
 16th the former I thought from the
 thing the other looking well my wife
 I in my mind I think they talk of
 coming to London the I believe the
 whole while but I don't think
 be here than as I am ordered to
 the sea for Stoughton Betting that
 place fixed upon at last in consequence
 it is a 100 load with four
 covered to Stoughton it is
 freight here in the Stoughton I hope
 would it has not been inhabited
 for a long time that it will be
 used about of nothing to ought
 it is very desirable. I think to be
 can be habited as accused

the time of year — they they write
 desired I find stand about when what
 benefit I derive from the women both
 for my self Annual health. I see
 write out I should be lying & I am
 thinking of getting up for as I have
 nearly lost my head when being
 run before me have been captured the
 (excepting) I should not be disappointed
 nor do I think we shall if the
 permission is asked as I should it.
 We are very kind in your opinion
 after my brother the Minister has
 done nothing as to the removal
 of the heirs of my Aunt & Uncle to
 that place I fear some miles
 long way to come that as well as
 many other ways one but to come
 that with in that would — I am
 not allowed to ride or walk at all
 during it they can't outsource a horse
 I should have. The Queen did
 not to be treated as so

That of course I did not. I should have
 liked to have come but it was not
 practicable - If you should write
 to Seville with regard to her
 if she needs my best letter -
 I have had a letter from the same
 diff: who desires me to remember
 her to all her friends in England
 that I may see you I may include
 a picture of the fine olive tree
 which I bought she is at home
 but the ink is going to London
 printing & to be printed at other
 than will be sent to you, if you
 do not like there will be in
 the Gazette perhaps is very
 to please to be sent they find it
 better than any of them - so one
 can be in it being to move them
 I do say write to me at Seville
 Mrs. Mrs. W. W. W.
 Yours affly
 W. W. W.
