Dear Sir

after the two
times better I received from you
whilst you were in Cambridge
kindly bringing you with a few
more lines of enquiry after the
state of spirits which I hope
has already been the better for
the quiet & change of air of the
country. I do hope you stay
in Cambridge will not be
any one to them here. There
have not seen you a good while
Altho' we are very anxious to see
you — do you get yourself
not equal to being seen
I am sure I could not

read the World's Guide of us
Dad, I felt very much inclined
to offer you our affectionate
Greeting to you & family & hope
you might have been so kind
at least to have seen our
wishes & desired it being
our own family & family
time but we hope it is better
his & that to be as well as
it will be & think we need
one to both — Every one
who I trust of opinion at
a gentleman who comes down
we have both few are to
accounts of you we would
to be confirmed by yourself
very — We have a very
of which we have heard

Very very happy one. I think you
will be delighted with the
house of love. The cottage ^{is not}
of course in its perfect beauty
at this time open to the
view is still good & the
trees keep their leaves wonderful
presence is not furnished or is
enough as it is to be but one
can hold all & everything at
once & in these times we must
be content indeed we cannot be
too much so — I think you
will always love me & I think
you think too & that you
were very anxious for this month
which is it makes you to be
happily & shall never forget
to always love & love you the
best love — We go to Brighton

was Monday but returned Sunday
Sunday following - As I could find
I will remember him to you &
to B. if he is with you - he shall
see both for you & I shall send to him
in your last letter to me -
Love ever & affectionately

Dear Madam
