

6 Nov^{br} I pretend not any fond to inquire why you are so anxious to
be informed ⁱⁿ engaged into the texture of my friendships with Lord Napier, but
I will tell you as far as relates to myself - I never had any other
idea but that of esteem & friendship - I never shall enter into
any other engagement with him - I think he loves me as his
best friend & sister. ——— Still you say friend that I
think a person of true refinement will never enter into a
sacred union if they do not feel they do or ever love that
person beyond every earthly being - upon this principle
I have ever acted & if my nature changes not - ever shall.
~~For~~ he must take things as we find them & act up as well
as we can to our respective situations in life
"Act well your part, there all the honor lies"

My heart is open to yr inspection - ~~The error of my~~
~~judgement~~ you will find it an honest one - The errors of
my judgement must never be imputed to its dictates -
You need not ask me to tell you what I hear said of you
My friendships will never suffer me to be silent - so
you may depend upon hearing - good - bad - or indifferent,
with my comments of course - Adieu
