

27 Nov^r continued. Miss - the Hon^{ble} - told me of such a²⁷
conversation of Miss Luttrell's - the Duchess of Cumberland's
sister, that I quite detest her, it was little short of
Treason - Politics are ever an improper ^{topic} conversation for a
Woman - but how highly improper for her - The Duke is
a very weak man, & by having connected himself with a
sensible daring set is led by them - I say no more,
but I trust you will ever be upon your Guard & not
associate with such a crew.

I do not much admire Miss J B - I think it only
in y^r. common style of travels & I should throw it aside
if you had not lent it to me -
