Lord North, The hearing that the four resolutions  
passed in the Committee of the whole House on the  
East India Affairs without a division is so very  
favourable a commencement of this business that I  
cannot help expressing the pleasure it gives me, and  
I trust that by a continued attention to the Affairs of  
the Company it may yet be saved from that inevitable  
ruin to which the ill conduct of the Directors and  
rapine of ~~the~~ servants have but too nearly plunged
