

Lord North

June 3 1776

16085

Lord North obey'd his Majesty's commands
last night immediately upon the receipt
of them, & imagines that the warrants
for the Bailiffs of Montagu & Clerkenwell
are already prepared. He is exceedingly
concern'd to hear of his Majesty's new
displeasur, & can not help fearing that the
S. of Montagu will grow tired of the
confinement & necessary abstinence of his
employment, & put his Majesty upon
to the inconvenience of a change. In every
other respect, the choice is respectable.

Ld. North

If the person very capable of properly
executing the trust.
