

R. Adam. Robt. Digby

June 28 1780

The King

16194

Sir

I am inform'd by Mr. Majors  
by a letter of the 26<sup>th</sup> that Prince Wil-  
iam had catch'd the Measles, which  
had been very troublesome to him  
for sev<sup>l</sup> days. He seems now to have  
quite got the better of them and is  
getting in very good spirits for the  
first time since he has had them,  
but is still rather weak w<sup>th</sup> profuse  
sweating which has been of great  
service to him. Mr. Majors's at-  
tention to him in every respect is  
beyond what I had expected from  
any body and I can't help repeating

1803

that His Royal Highness keeps pace  
with my most sanguine wishes

Your Majesty very  
faithfull and over  
duttyfull

Servant

John Dighton

Prince George  
June 4<sup>th</sup> 28<sup>th</sup>  
1781
