My dear Sovereign!

I am happy to have the honour to inform y^e Majesty that I think we are going ^{on} extremely well, tho' we have been awkwardly check'd this last week by religion & politics; However the cause is removed & the effect is ceas'd & we are better than ever. I imagine your Majesty has had all the particular plants &c of this country, which I think are numerous as well as curious. Should Mr. Sibon want any seeds roots &c I will take care to procure them. My heart is ever present with you & yours & never more sincere than when subscribing myself
Your faithful & affectionate Subject
F. Hillis
